March 10th , 2015

To our Brothers and Sisters of Cupe local 4207,Unit 3,ESL instructors

Dear Brothers and Sisters,

As President of Cupe local 1295,Custodial,trades,and food service workers at Brock University, I'm Writing this letter in full support of your cause. I feel what you are negotiating for are 3 highly important issues that help us not only as members, for a better place to work, but also a better place to learn for the students you instruct. How can the University continue to deny that we should have the highest possible educational standards for our students. When ideally, that's what each and everyone of us,(including our employer) is here because of .I just heard two weeks ago in the Presidents forum ,they spoke of "Brocks reputation" apparently, 'If you can walk and talk you can go to Brock". I would most definitely think we would want to change this "brand". Is the employer thinking that the highest standard of professionalism is not necessary, because the international students will come anyways? But will they? I'm not sure, lets make the employer realize how vital you, as ESL Instructors are to our University, and keep the work in your capable hands. Stand Strong, Stand Together.

Yours very truly,

Shane Jenkins,
President ,Cupe 1295.
