Brothers and sisters from Local 4207,

Better working conditions is a necessity for all labor workers. With our conservative government slowly removing our rights, it is crucial for us all to support each other in times of need in order to stand strong against this tyranny.

Our Local, 4044 – CanJet Flight Attendants fully supports your members to take action to have an improvement in your next Collective Agreement. Negotiations for job equity, job security and Educational standards are a basic minimum to maintain integrity for your members. Your hard work will be an example for all others facing the same situation.

Alone, we can do so little; together, we can do so much.
