CUPE 4207 Statement on sexual violence at Brock University

The CUPE Local 4207 Equity Committee and the Executive express our concern and outrage at the recent events involving the silencing of occurrences of sexual violence and sexual harassment at Brock University. We stand by everyone who has the strength and courage to report their assailant and we do not tolerate the environment of secrecy and silencing that is found on the Brock campus. A university must be a safe space in which one does not have to fear seeing their assailant walk freely on campus! All violence must be taken seriously and dealt with immediately and with visible tangible consequences for the assailant.

We support a safe Brock for everyone and demand action, not damage control.
